

PLANS TO MAKE OUR CAB SYSTEM A MODEL.

Mr. Fornes Would Reorganize It, Combining Best Regulations Used in London and Paris—Would Mean Honest and Prosperous Cabbies.

President Charles V. Fornes, of the Board of Aldermen, was much impressed with the cab systems of London and Paris on his recent trip abroad, and an effort will be made to secure a similar system in New York to that of London. Under that system cabbies are organized into a union, and the cabs are clean, well-kept and comfortable, and the cabbies are honest and prosperous. Mr. Fornes believes that the cab system in New York is a disgrace, and that it is a disgrace to the city. He believes that the cab system in New York is a disgrace, and that it is a disgrace to the city. He believes that the cab system in New York is a disgrace, and that it is a disgrace to the city.

As to "Lost" Articles. Should a passenger leave his \$100 coat or his \$5 eyeglasses in the cab he can recover his property by reporting the loss at the Hackney Cab Lost Articles' Department at New Scotland Yard, and paying a single fare for the cabbie from the place where he left the cab to Scotland Yard. It is the duty of each cabbie to examine his vehicle after discharging a passenger, and if the passenger has left anything behind to take it straight to Scotland Yard and "turn it in." The Scotland Yard people pay the cabbie and collect fare from the passenger, who is also promised to pay 10 per cent. of the value of the lost article as a reward for the cabbie's honesty. There is seldom any objection. If the lost article is never called for, the cabbie has at least received the fare earned in taking it to Scotland Yard, and when it is sold at the periodical "lost articles" auction, he receives his 10 per cent. reward.

No Dispute on Distances. Pedometers which tell the distance traveled are generally in use in Paris and are being introduced in the cabs of London, destroying all chance of dispute on that point. If the traveler prefers to drive by the hour the charge in London is half a crown, or 30 cents, in American money, per hour, at a rate.

DIES FOR MURDER OF WIFE AND NIECE

Bigler Johnson Before Going to the Gallows Exonerated His Brother, Whom He Had Implicated in Crime.

(Special to The Evening World.) WILKESBARRE, Pa., July 25.—Bigler Johnson, a member of the remarkable clan which is descended from Sir William Johnson, who was King George's Indian Commissioner in New York State, and Anthony Vandenberg, an uncle of Martin Van Buren, the eighth President of the United States, was hanged in the jail yard at Towanda today. He had confessed to the murder of his wife and niece, implicating his brother Charles, who is now under sentence of death, hoping to save himself with a term of imprisonment for confessing. A few days ago, realizing that he could not escape death, he made a second confession, exonerating his brother Charles and saying he alone committed the murder. Johnson comes of the famous "Paul" tribe, which has lived in Bradford County for over a hundred years. A daughter of Sir William Johnson, whose wife was a Mohawk Indian Princess, married Anthony Vandenberg, of a famous old Dutch family, and they settled in Towanda, Pa. Their descendants form the "Paul" tribe, many of the members of which are Quakers.

Bigler Johnson claimed he never went to school or church and knew nothing of the Bible or religion.

LIFTED A CAR OFF BOY'S BODY

Five-Year-Old August Aldrecht Was Stealing a Ride on Ice Wagon and Fell Under Trolley Car.

Five-year-old August Aldrecht, of No. 92 King street, Brooklyn, was crushed to death under a trolley car, at King and Richard streets today. The boy was riding on the back of an ice wagon and fell off when the wagon was struck by the trolley car. The trolley car was driven by a man named John Smith, who was driving it from the ice house to the city. The boy was killed instantly.
